SUMMARY

Full-Stack Web Developer passionate about providing users a great experience and enabling them to feel a connection with my applications. Recently graduated from UNC-Chapel Hill's Full Stack Web Development Bootcamp. I have built several applications using technologies such as SQL, MongoDB, React, HTML5, Javascript, Node.js, CSS, Sass, Express, and many others. As a former English teacher, I excelled in the multiple skills required of me that will serve me well in the tech field, including excellent communication skills, superior attention to detail, and a desire to be a lifetime learner that is paramount in the ever-changing world of technology. In addition to this, I always strive to ensure that every voice is heard and every concern eased in team settings, as a calm, level-headed approach is always best for working out issues that may arise. This was highlighted in the projects I covered as a UNC Web-Dev Bootcamp student. My ultimate goal is to partner with a company to blend my new technical skills with years of experience as a teacher. These skills all mesh together to make me a great addition to any team for any project.

SKILLS

HTML5,CSS,Javascript-ES6,Node.js,Express,MYSQL,SQL,Git,GitHub,JQuery,React,REST-APIs,MongoDB,Mongoose,GraphQL, SASS.

PROJECTS

Full Stack Web Developer – COFFEE & PARENTING

WORK EXPERIENCE

Joy of Learning Preschool, Little Bear Pre School, Influx Languages, Masterpiece Pre School |
Role: English Teacher |2015-2019

Description: Worked at different schools teaching English as a second language to children and adults.

•Developed a system of communication with parents and school staff to keep track of current contents being learned by students in English class;
•Educated parents and coworkers on second language acquisition (theories, methods, practices, and expectations)
•Successfully planned lessons and classes according to children's developmental stage and student level of English;
•Kept track of each child's progress in class and provided the parents a complete analysis of children's pronunciation, rhythm, and intonation in English.
•Communicated with school staff, parents, and students to establish goals and plans for upcoming months.
•Created and distributed educational content (notes, summaries, assignments)
